Form 3547 Requested

NO CATALOGUE THIS YEAR — just a listing of what we have for sale. The reason — sickness — an interruption of about six weeks from our normal routine and to make it bad, just at the height of our digging and catalogue time! So pardon us this year — we hope to be able to put out our usual catalogue next year. Pardon us also if we do not have everything you order—it has been a big task to get things lined up so we know where we stand on varieties and quantities. Pardon us, too, if we have been late in answering your inquiries.

EARLY ORDERS

This year we started planting on March 9th, so you can see why we ask for your orders early in the year, Our stocks are full and we have no trouble filling orders for various sizes up to that time, but by the first of April, some of the varieties or sizes will be depleted. We can give your order better attention early in the year — we have more time to select the best bulbs—so try to get your order in early for you help us very much when you do.

SHIPPING

We can ship express practically any time within reason, but most parcel post orders are shipped in March or April. If you want your order early, have it shipped by express. Help us by showing the approximate date you want to get your bulbs. You know your local conditions better than we do — so help us that way.

PLANTING INSTRUCTIONS

Planting instructions will be included with all shipments. This will be the latest up-to-date information available, written by experts — published by the North American Gladiolus Council.

SUBSTITUTIONS

We might as well be frank on the substitution situation. No one likes to substitute and no one likes to get a substitution, but there are certain limitations that are hard to overcome. A small 25c item that we cannot fill on an order makes it prohibitive to refund, and we would probably substitute. We will not substitute on anything but small items. On the early orders there is seldom any reason to substitute and we do not run into much trouble until the middle or end of March. After that time it becomes increasingly difficult to fill all items as ordered. Therefore, on all orders received after March 16th, unless you specifically request us not to do so, we will substitute size, but not varieties. After April 1st we will substitute size first and then varieties. You may be sure of one thing, though, we will give better value in the substitution than the one originally ordered.

SALES TAX

We have been advised by the State Tax Commission that we will have to collect 3% sales tax from all Ohio customers. Please include the amount with your order unless you have an exemption certificate. **PLEASE NOTE THIS APPLIES TO OHIO CUSTOMERS ONLY.**

EXTRAS

Each year we put a note in the catalogue, asking that you mention an extra or two that you might like to receive. We can't always give you what you might like, but the mention of an extra at least helps us to decide what you are interested in.

There has been considerable talk among the growers of doing away with the giving of an extra. In fact, some growers are doing this right now but for our part the idea of putting an extra in the order is two-fold—one, to give you a chance to look at some variety we think is extra nice, and second, to sort of say "thank you" for your order. So—please list a few names of some varieties you might like to have — it will help us ever so much.

TRANSPORTATION

One of our big expense items is postage and express on our orders. We have concluded that it is best for each to pay their own transportation charges, then the man living close by is not paying part of the cost of transportation for the man living a long way away.

Will you therefore please include postage with your remittance. Help us to help you by keeping our prices down as low as possible, consistent with good quality.

To figure your postage on an order, count the number of large, medium and small bulbs you have ordered and use the table below, i.e., fifty large bulbs packed for shipment would weigh about 8 pounds, 25 medium bulbs would weigh about 2 pounds. We will include extras if you miss your estimate by a small amount, or we will refund any sizeable overpayment. Madison is about 40 miles east of Cleveland, Ohio.

GUARANTEE

We guarantee our bulbs to be true to name and free from disease or thrip. If any of our bulbs are found not to be as represented, we will either refund your money upon their return or we will replace the unsatisfactory stock. We cannot, at any time, be responsible for more than the original amount paid for the bulbs. Due to conditions beyond our control, we are not responsible for the growth of bulbs or bulblets. All orders are placed with this understanding.

Please open package immediately upon its receipt. Examine carefully and if not satisfactory, advise us at once. We admit we make mistakes once in a while, but we are ready to adjust them without complaint. Both in field and the bulbs in storage have been state inspected, which, with our own rigid inspection, makes us feel sure of our stock.

● New Introductions

From George Wilson comes the following:

ELK HORN — a plum colored smokie with a yellow blotch - no markings on the blotch, classed as a 382 - medium-sized florets, triangular and wide-open, somewhat ruffled. The medium-stiff stem holds 7 open on a 19 bud spike. Will average close to four feet in the field. Quite an interesting color combination, particularly for the smokie fan. Seedling N. 149V - a cross of Oklahoma and Glamorous.

LAMOA - Seedling 00-62 — a cross of Glorious x Terrific, classification 386. Another smokie that is very attractive - Rose smokie, with a cream blotch and an orange red feather. As you might expect from the cross, it will hold 8 open on a 21 bud slender stiff spike. Florets are triangular, slightly hooded, ruffled and recurved with formal placement. Will grow four to four-and-a-half feet in the field, blooming in about 80 days. A very good propagator - again one that will attract much attention.

MOANITA — Seedling Plus 130 (Terrific x Glorious) Classification 230. Light salmon with a cream blotch and a cherry colored fan on the blotch. Destined to be a stiff competitor on the show table for it will hold 10 to 12 open on a 20-bud slender but stiff spike that will reach 50" in the field. Florets are triangular, wide open and plain with a little recurving. Rather late in blooming is its main fault - 100 days, but worth the effort to get a show winner.

NIATA - Seedling Plus 110 - Glamorous x Terrific. A good addition to the medium orange class. The cream blotch makes it attractive, and the cherry fan on the blotch adds the finishing touch. Again we have lots open - nine on a 23-bud spike that is medium thick and quite stiff. Florets are wide open, round in shape with some ruffling and waving, 95 days blooming time with a spike of about four feet.

PRICE OF THE ABOVE — Large \$2.00, 10/\$16.00 - Medium \$1.50, 10/\$12.00
Small \$1.00, 10/\$8.00 - Bulblets 10/\$1.50 - 5/75c. Stock somewhat limited.

● Garden Mixture

We always seem to have quite a call for our GARDEN MIXTURE. This is a mixture made up as your order comes in and it can be made up in light or dark colors if you prefer it that way. Ordinarily, the mixture will include a complete run of colors. Naturally, none of the varieties will be named and they will be all mixed up in the bag. They will be nice clean bulbs, healthy and ready to produce for you a good assortment of colors during the entire blooming season. This Garden Mixture should be particularly useful if you are not interested in named varieties.

PRICE — 100 large bulbs \$5.00 — 50 for \$2.75 — 25 for \$1.50
100 Medium bulbs \$3.00 — 50 for \$1.65 — 25 for \$1.00

If you want your mixture of miniatures only, please tell us when you order.
